.....  
.....

4. Name, address, telephone and fax number of the person that shall receive correspondence and questions regarding this application.....  
.....  
.....

5. When the applicant is a company, details must be provided below regarding any retention by other persons of the company's shares that should be made public in compliance with the applicable laws and regulations regarding the notification of such retention .....

.....  
.....

6. When the applicant is a company, the audited balance sheets for the last three fiscal years must be submitted

.....  
.....

7. Type of licence applied for.....

.....  
.....

8. Preferred date for the licence effective date.....

.....  
.....

9. Preferred licence duration.....

.....  
.....

10. Describe any amendments of the normal licence conditions specified in the Electricity Market Regulation Laws of 2004 (licence issue) requested by the applicant and detail the reasons for such request

.....  
.....

11. Details regarding any other licences or exemption of licences the applicant holds, has applied for or is applying for regarding the Production or Distribution (Supply) of electricity in the Republic of Cyprus or in the European Union.....

.....

.....

12. Details regarding any other activities not related to electricity carried out by the applicant .....

.....

13. The proposed site for the station(s) covered by the licence, including the full addresses, the land owner's preliminary consent, and, when relevant, a map showing the site .....

.....

.....

14. Submit the applicant's Business Plan regarding the proposed project.....

.....

15. Please confirm that the applicant is the station's beneficial owner and provide complete information regarding the person in charge for the station operation, as well as information regarding their ability to undertake the activities applied for.....

.....

16. Please, confirm that all necessary legal authorisations have been obtained, and provide full information regarding all authorisations obtained so far. Should no authorisations have been obtained so far, please itemise them

and provide information regarding the applicant's suggestions for obtaining them, including the proposed schedule.....

.....  
.....  
.....

17. Documents, information and studies confirming the availability of necessary raw materials or renewable energy sources for the proposed activity.....

.....  
.....

18. Estimated commissioning date of the proposed Generating Station (submit a construction schedule) .....

.....  
.....

19. Capacity, type and technical specifications of each unit within the Generating Station (MW).....

.....  
.....  
.....

20. A techno-economic study including substantiated calculations and projections regarding the incomes, divided into main cash inflow/outflow categories for the project's technical life.....

.....  
.....

21. State whether you have received any public subsidy regarding the eligible costs of the investment applied for or whether you have claimed or plan on

claiming a subsidy and from where. Mention any conditions and restrictions of these public eligible expenditure subsidy plans for the investment, in relation to the electrical energy distribution possibility.....  
.....  
.....
