EU energy targets

Energy Union – Winter Package

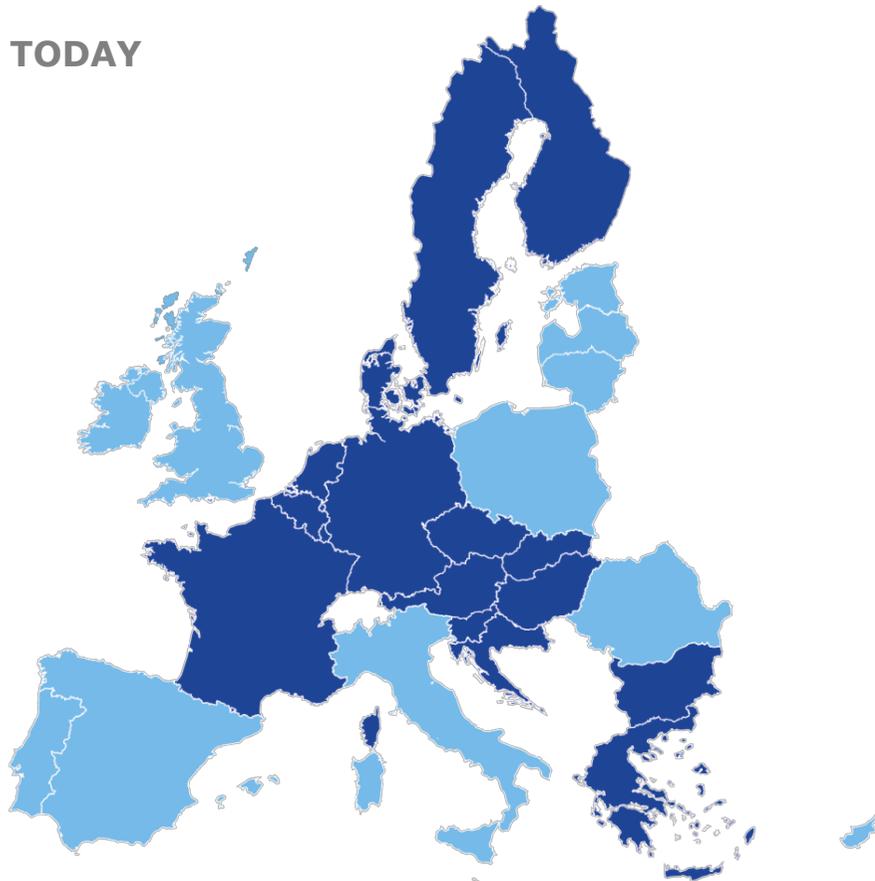

EU medium and long term targets

2050 **-80%** **Greenhouse Gas Emissions**

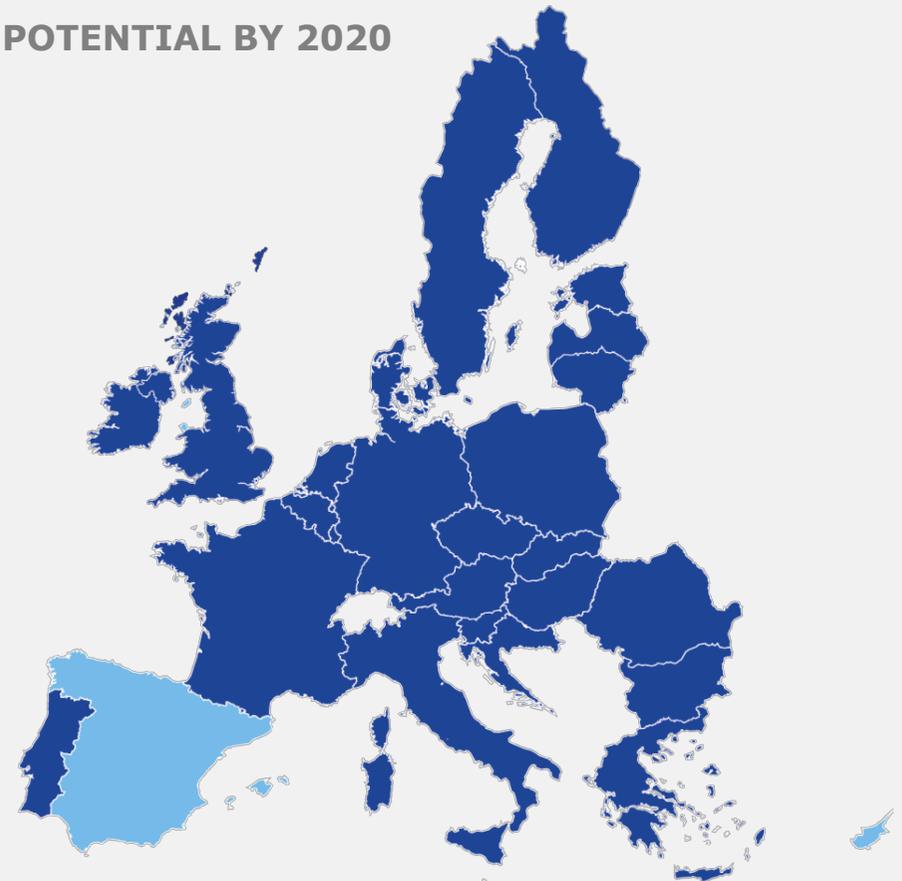

Connecting electricity markets

TODAY

- Countries meeting the 10% **interconnection** target
- Countries not meeting the 10% **interconnection** target

POTENTIAL BY 2020

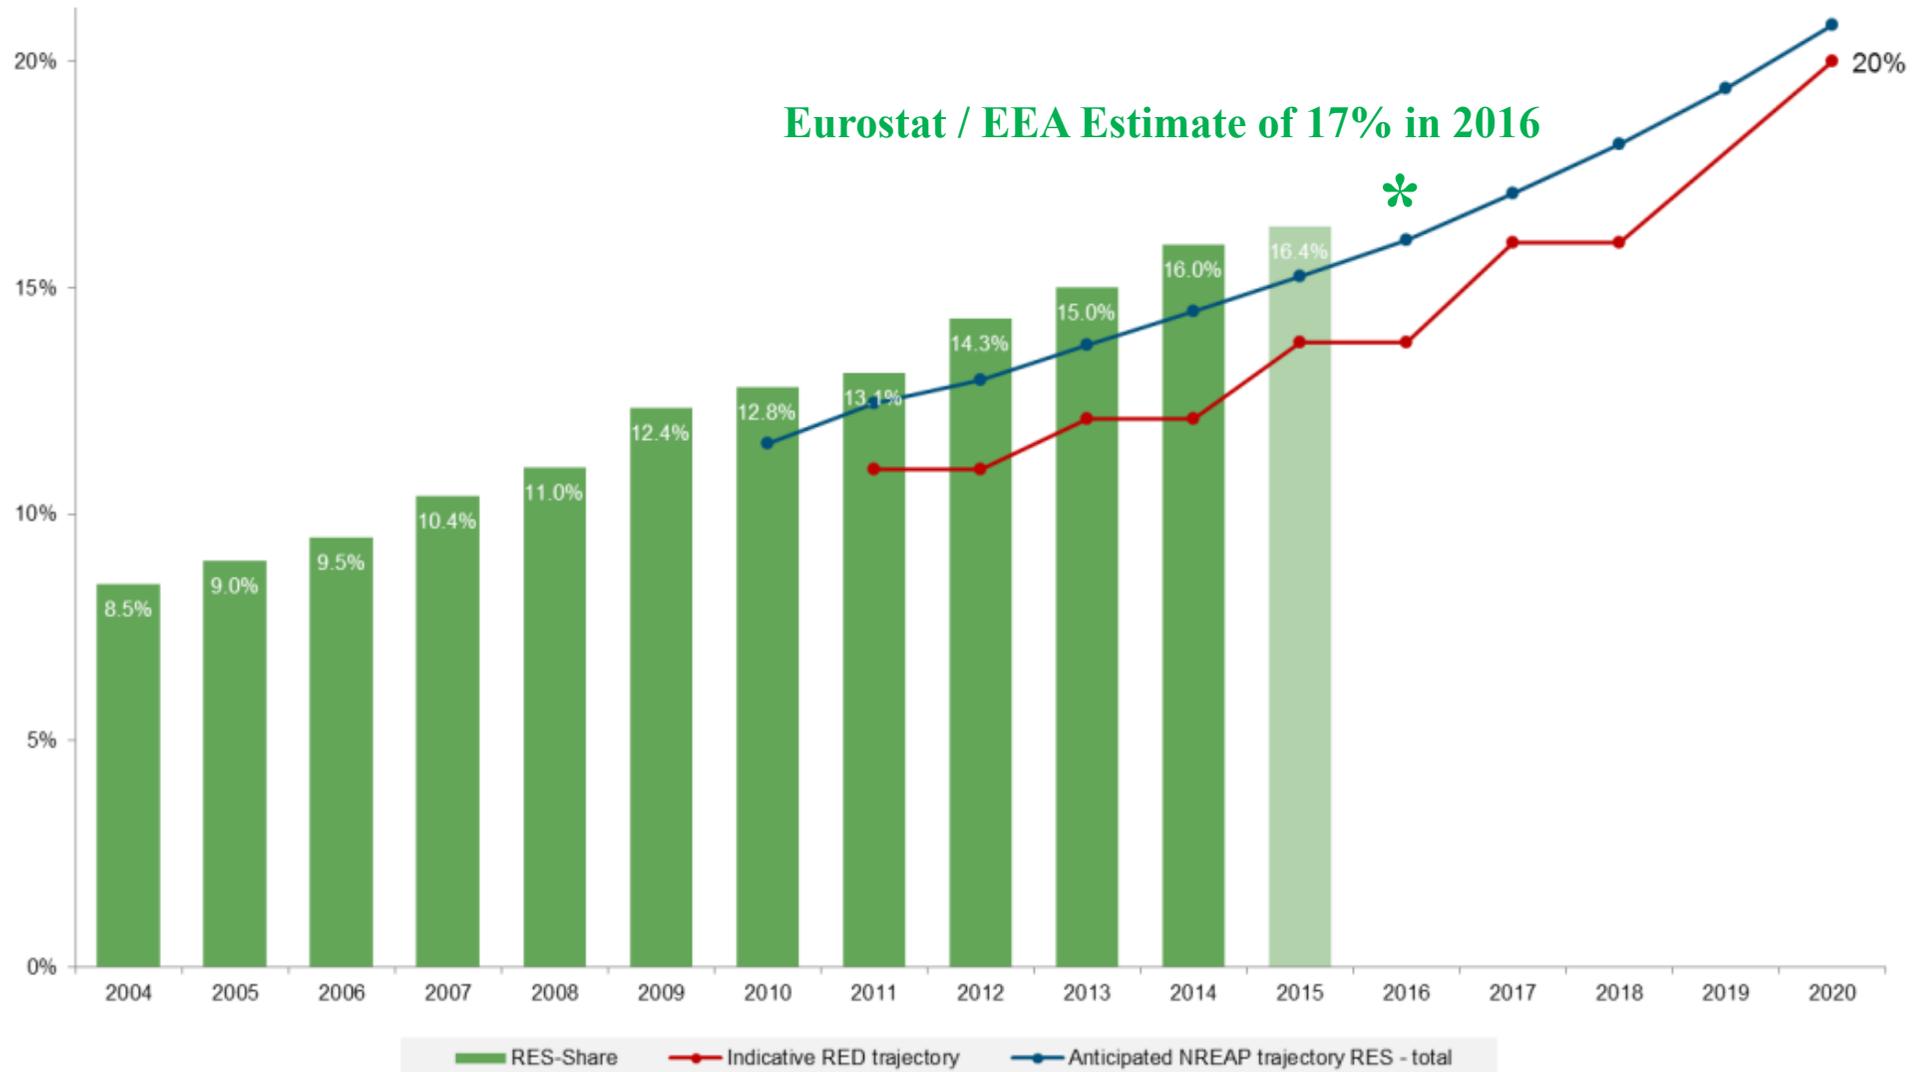

Efforts need to be stepped up for those below the 10% target by 2020, mainly Spain and Cyprus, and in view of achieving the 15% target by 2030.
